Forty Mile County

Why data cannot be reported

EDI questionnaires were collected for Forty Mile County in 2010, 2011 and 2012. The results were released in a Community Information Package in 2013. No additional EDI information was collected subsequently.

Further analysis and cleaning of the EDI data from 2010-2012 reduced the number of questionnaires that could be included in the results. Out of 122 available questionnaires, 77 met the criteria for analysis and could be used. (See page I-12 and I-13 for more information on the criteria.) The number of questionnaires that could be analyzed represents 67 per cent of the children who are enrolled in kindergarten and live in the community, less than the 74 per cent minimum required to ensure representative results. The table below provides information about the EDI questionnaires that were available and usable and parental consent rates.

Forty Mile County EDI questionnaires

Year	# of EDIs available	Parental consent rate	# of EDIs usable for analysis	% of EDIs usable for analysis
